ASX release

Worley receives Full Notice to Proceed on first phase of CP2 project

Worley Limited (ASX:WOR) ("Worley") today advises that it has received Full Notice to Proceed from Venture Global under its reimbursable EPC contract¹ for the first phase of its CP2 project – a major LNG export facility located in Cameron Parish, Louisiana, United States. Worley has been providing engineering, procurement and construction planning services under a Limited Notice to Proceed linked to the EPC contract, and more recently its team was mobilised to site.

Full Notice to Proceed follows Venture Global reaching a Final Investment Decision (FID) on 28 July 2025.

"We are pleased that Venture Global has reached this significant milestone. CP2 is a strategically important project to global energy supply and security, and we are proud to be working with Venture Global as their project delivery partner. Our engagement on this opportunity further affirms our capabilities and deep expertise in delivering complex, large-scale projects," said Chris Ashton, Chief Executive Officer at Worley.

The work is being led by Worley's Houston and Reading offices and supported by Worley's GID team. Worley categorises this work as transitional work.²

Authorized for release by Nuala O'Leary, Group Company Secretary.
