MAWSONS QUARTERLY ACTIVITIES REPORT

ASX: HIO

JUNE 2025

30 July 2025

Highlights

- Project Update Report completed, supporting the use of a dry crushing/grinding circuit;
- Collaborative Research Project with CSIRO commenced;
- Share Purchase Plan and Share Placement completed, raising \$1.9M;
- Appointment of highly regarded Project Manager and processing specialist to oversee the next phase of the Project;
- Board visit to Broken Hill

Project Update Report

During the quarter, Hawsons Iron Limited (**Hawsons** or the **Company**) completed its current dry comminution test work program and the Mineral Resource variability study and engaged Stantec, acting as independent engineering consultants, to prepare the Project Report¹.

The Project Report:

- Supports the use of 100% dry processing circuit, a significant Project enhancement whilst also incorporating safety, environmental, operational and maintenance benefits;
- Provides confidence for further investigation into potential secondary products (e.g. hematite, silica sands) and flow on optimisation of mine design, processing & logistics;
- Demonstrates a high level of geochemical and physical material consistency, throughout the current Mineral Resource, particularly within the early phase of operations, which significantly contributes towards de-risking the Project during its early years of operation; and
- Supports a co-disposal mine waste with dry processing waste solution as part of a sustainable Project waste management program.

The Project Report is the culmination of the works undertaken over the last 12 months. Hawsons has been focused on thoroughly testing and understanding the technical properties of the Hawsons deposit and testing the viability of a 100% dry crushing and grinding circuit. The result is a simplified, de-risked, lower-cost and environmentally cleaner alternative to a traditional hydrometallurgical route.

The upcoming Prefeasibility Study (**PFS**) will build upon the result of the Project Report.

¹ASX announcement '<u>Hawsons Iron Project Update Project Report findings support Dry Processing Circuit</u>' dated 22 May 2025

Collaborative Research Project with CSIRO

Hawsons has commenced a collaborative research project with CSIRO², Australia's national science agency, with financial assistance provided through its Kick-Start Program, and has been approved for a \$47,850 Kick-Start Program voucher.

This two-part project aims to:

- 1. Provide further confidence in the physical and metallurgical properties of pellets that can be manufactured from Hawson's Magnetite concentrate through:
 - a) A suite of balling tests to optimise the binder addition and quality assessment of the green pellets;
 - b) A suite of preheating and roasting tests to optimise the firing profile of the green pellets and assessment of preheated and fired pellet strength; and
 - c) Confirming the firing profile at a larger scale to provide sufficient sample for physical and metallurgical characterisation of the pellets as a Blast Furnace and Direct Reduction shaft burden.
- 2. Determine the chemical and mineralogical properties of the non-magnetic iron content contained within the tails fraction. Specifically, the work is designed to determine:
 - a) the main Fe-bearing mineral reporting to the tails;
 - b) the degree of liberation of the Fe-oxide in the tails and the associated gangue minerals; and
 - c) the deportment of phosphorus (and other impurity elements) in the fraction.

Beyond the financial support, the collaborative research project provides Hawsons access to CSIRO's world class facilities and expert team.

Share Purchase Plan and Share Placement

During the quarter, the Company announced a Share Purchase Plan (**SPP**) to raise \$1M. Total applications received for the SPP were \$1.21M. The Board decided to accept all valid applications received, resulting in a total of 71,139,296 shares issued under the SPP at \$0.017 per share, representing an 18% discount to the 5-day volume-weighted average price per share up to the close of trade on 15 July 2025.

In addition to the SPP, the Company has completed a small Share Placement to raise \$700,000 at the same price as the SPP. The total shares under the placement were 41,176,471 shares.

Hawsons Directors and Management actively participated alongside shareholders in the SPP and Share Placement, contributing a total of \$95,000 to the raising.

As noted in the Share Purchase Plan offer booklet funds raised under the SPP will be used for:

- Undertaking works to provide an updated PFS, together with Maiden Ore Reserves for the Project;
- Further investigation into potential secondary products and flow on optimisation of mine design, processing and logistics; and
- General working capital.

The additional funds raised from the Share Placement will be used to accelerate key metallurgical test work, progress preliminary environmental studies and bolster the Hawsons team with key technical staff (refer below).

² ASX announcement '<u>Hawsons Enters into a Research Project with CSIRO</u>' dated 3 July 2025

Key Technical Appointments

Hawsons is pleased to confirm the appointment of comminution and processing specialist Mike Daniel, and Project Manager Mick Ryan.

Dr Mike Daniel has extensive experience in the design and application of processing technology as well as process audits, modelling and optimisation of comminution circuits. Mike's clients have included Barrick Gold, Anglo American, Xstrata/Glencore, Straits Resources, Vale, Ausenco, Cliffs, Vedanta, CBH Resources, Boteti Mining, AngloGold and CITIC-HIC.

Mike's focus will be to drive the current process test work programs (dry comminution, byproducts etc) including the critical pilot test work program which will be used for finalising a detailed process flow sheet, ahead of commencement of the final Definitive Feasibility Study (**DFS**).

Mick Ryan is a highly experienced mining and resources industry veteran with over 40 years' experience in the global mining sector. He has held senior project management roles including in nickel, graphite, niobium and gold for Australian and African Projects and has worked with a number of mining companies including Alacer, Turquoise Hill, Azumah Resources, Resolute Mining, GME Resources, CleanTeq, Black Range Minerals and Anaconda Nickel. Importantly for Hawsons, Mick has relevant project approvals experience in NSW with the Syerston Nickel Cobalt Project.

Mick's role at Hawsons over the next six months will include leading and coordinating the PFS program, commence planning on the DFS planning and budgeting, manage preliminary environmental studies and beyond that, oversee the full development of the Hawsons Iron Project from DFS through to commissioning.

Board Visit to Broken Hill

In late April, the Board had the opportunity to travel to Broken Hill to meet with key stakeholders and conduct a project site visit.

The Board held several meetings during the visit including:

- A meeting with members of the Broken Hill Local Aboriginal Land Council to provide a project update and reinforce the Hawsons' intentions to collaborate and work closely with the Land Council;
- A project update and Q&A session with members of the Broken Hill City Council; and
- Dinner with Broken Hill Mayor and other senior council officers.

Figure 2: Project update with the Broken Hill City Council

Financial Position

At 30 June 2025, Hawsons had cash reserves of \$0.2M. Operating cash outflows for the quarter were \$0.35M, and Investing cash outflows were \$0.47M, attributable to the operational activities outlined below.

Further details of financial activities during the March 2025 quarter are set out in the Appendix 5B Quarterly Cashflow Statement which accompanies this report.

As noted above, subsequent to quarter end, the Company raised an additional \$1.91M (before costs) through an SPP and a share placement.

Operational Activities

During the quarter, activities focused on:

- Project Study works;
- Process optimisation and by-product studies; and
- Metallurgical test work.

There were no mining production and development activities during the quarter.

Related Party Payments

During the quarter, Hawsons paid a total of \$50,375 of director wages and fees. There were no other related party transactions.

Capital Structure

As at the date of this report, the Company had the following shares and options on issue:

- 1,128,817,135 shares on issue (inclusive of 3,569,857 non-recourse employee shares)
- 201,640,309 options on issue, being:
 - o 102,440,309 options exercisable at \$0.050, expiring 30 May 2026
 - o 71,500,000 LDA options exercisable at \$0.055, expiring 21 December 2025
 - o 700,000 lead manager options exercisable at \$0.030, expiring 16 July 2028
 - 27,000,000 Director and employee incentive options with various vesting milestones, exercise prices and expiry dates.

	LDA Capital Hawsons Iron has entered into a Put Option Agreement with United States investment group LDA Capital Limited.				
	The Company can draw down funds during the term of the Agreement by issuing ordinary shares of the Company (Shares) for subscription to LDA Capital. The Company may issue call notices to LDA Capital with each call notice being a put option on LDA Capital to subscribe for and pay for those Shares. A Call Notice draws upon the Companies placement capacity which there must be available capacity to initiate a Call Notice on LDA Capital.				
	The issue price of the Shares is calculated at the completion of the 30-Day pricing period, following the Capital Call Notice as the higher of 90% of the 30-day Volume Weighted Average Price (VWAP) after the issue of the Call Notice, and the 'minimum acceptable price' (as defined in the LDA facility) notified by Hawsons to LDA Capital, in each case subject to adjustments for various factors. Based on the historical trading volumes and the HIO share price at the end of the quarter ending 31 December 2024, Hawsons has estimated the total capital limit of the facility at 30 June 2025 at \$2,084,000 (refer 7.3).				
	LDA has the right to reduce the Proposed Capital Call Shares (Subject to adjustments) by up to 50% or increase the number of Proposed Capital Call Shares by up to 100%. Except for option shares, LDA must not, on any Trading Day during the Pricing Period sell Collateral Shares representing more than 1/30 th of the Shares specified in the Capital Call Notice.				
	option shares, LDA must not, on any Tradir	Capital Call Shares by units of the capital Call Shares by units the Pricing	up to 100%. Except for g Period sell Collatera		
	option shares, LDA must not, on any Tradir	Capital Call Shares by un ng Day during the Pricing Shares specified in the C ptions under which HIO	up to 100%. Except for g Period sell Collateral apital Call Notice. will issue 71,500,000		

8.	Estim	nated cash available for future operating activities	\$A'000
8.1	Net ca	ash from / (used in) operating activities (item 1.9)	(345)

8.3	Total r	relevant outgoings (item 8.1 + item 8.2)	(812)
8.4	Cash and cash equivalents at quarter end (item 4.6)		202
8.5	Unused finance facilities available at quarter end (item 7.5)		2,084
8.6	Total available funding (item 8.4 + item 8.5)		2,286
8.7	Estim item 8	ated quarters of funding available (item 8.6 divided by 8.3)	2.82
	Note: if the entity has reported positive relevant outgoings (ie a net cash inflow) in item 8.3, answer item 8.7 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.7.		
8.8	If item 8.7 is less than 2 quarters, please provide answers to the following questions:		
	8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?		
	Answe	er:	
	8.8.2	Has the entity taken any steps, or does it propose to take any s cash to fund its operations and, if so, what are those steps and believe that they will be successful?	
	Answe	er:	
	8.8.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?		
	Answe	ər:	

Compliance statement

- 1 This statement has been prepared in accordance with accounting standards and policies which comply with Listing Rule 19.11A.
- 2 This statement gives a true and fair view of the matters disclosed.

Date: 30 July 2025

Authorised by: The Board (Name of body or officer authorising release – see note 4)

Notes

- This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
- 2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, AASB 6: Exploration for and Evaluation of Mineral Resources and AASB 107: Statement of Cash Flows apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
- 3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
- 4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
- 5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
