

## Quarterly Activities Report – June 2025

Heavy Minerals Limited (ASX: HVV) (“Heavy Minerals” or the “Company”) is pleased to present the June 2025 Quarterly Activities Report, the highlights for the period are as follows:

### Key Highlights:

- **Port Gregory Pre-Feasibility Study (PFS) Progresses:**
  - ✂ PFS study work for the Port Gregory Garnet Project (PGGP) is nearing completion with a revised release in Q3 2025 (late August / early September).
  - ✂ The Company is finalising Capital Cost review work and Financial Modelling work based on the AMC PGGP Ore Reserve Development and mine scheduling work inputs.
- **Potential Industrial Minerals Opportunity:**
  - ✂ During the quarter the Company engaged IHC Mining to process a bulk sample to produce ~750 kg of finished industrial product. This material will be used for a rigorous product testing program that will bench mark the performance of these industrial products against industry standards and equivalent competitor products. This test program has commenced at CSIRO in Pullenvale, Queensland. Subject to the outcome of this test program the Company will assess the viability of executing a binding agreement in Q3 2025. Additionally, IHC Mining along with the Company and Allied Project Developments have been assessing preliminary process flows, plant design and CAPEX requirements.
- **Preparation of the Mining Lease Application:**
  - ✂ The Company has received all documentation for the lodgement of the Mining Lease Application which it intends to lodge in Q3 2025.
- **Financing:**
  - ✂ During the quarter the Company received \$200K in Royalty funds with an additional \$150K being committed. The Company anticipates completing its Tranche 2 Royalty funding in Q3 2025. The Company additionally raised \$85K utilising its ATM (At the Market) Facility.

### Commentary from Executive Chairman, Mr. Adam Schofield:

“The Company is pleased to present this Quarterly Report which summarises the continued progress we are making with the Port Gregory PFS and additionally with the Industrial Minerals Opportunity referred to in the last Quarterly Report. We are grateful to shareholders for their patience whilst the PFS has been delayed and we do not anticipate any additional delays post Q3 2025. We trust the significant work undertaken by the Company and its Consultants will provide shareholders with confidence in the PFS results and will set a clear pathway for the development of the Port Gregory Garnet Mine.

Whilst awaiting the finalisation of the PFS the Company has explored the potential of developing an additional Industrial Minerals Opportunity. The Company has now had a ~750 kg industrial test sample produced by IHC Mining from which a number of products have been created that are being used in industrial test trials at CSIRO in Queensland. Furthermore, the company has worked on preliminary process flows, plant designs and budget CAPEX requirements. Subject to these industrial test trials being successful the Company will assess the potential of entering into a binding agreement in Q3 2025 for the development of this Industrial Minerals Opportunity, with near term production possibly post a final investment decision. We believe this opportunity will add significant value to the Company in the near term if pursued. The Company has also continued to raise funds via its Non-Dilutive Royalty which we believe maximises shareholder value as the Company progresses towards being an industrial minerals producer in the near term.”

### **Port Gregory Pre-Feasibility Study (PFS)**

IHC Mining are an industry leading Mineral Sands Engineering Consultancy with over 100 years of global experience in the mining sector including mineral extraction from fine sand ores.

The IHC study team selected for the project is being led by many of the engineers that worked directly on the Port Gregory Scoping Study (PGSS) and Preliminary Economic Assessment (PEA) announced in December 2022. The learnings from this project and other mineral sand projects IHC Mining have undertaken will be applied to HVY's Port Gregory PFS providing HVY with a best-in-class outcome.

The PFS is a critical step following the PGSS and PEA aimed at further defining the project's potential and paving the way for future development. The PFS aims to build on the findings of the PGSS and PEA, deepening the understanding of the project's economic, technical, and environmental aspects whilst also improving project value and reducing development risk.

**Potential Port Gregory modular processing plant and site layout is shown in Figure 1.**

*Figure 1 – PGGP Minerals sands modular plant and site layout looking north (IHC Mining)*

The PFS will adhere to the highest industry standards, including the JORC Code 2012 Edition, VALMIN Code 2015 Edition, and AusIMM Engineering Reporting Study Guidelines. This ensures that the study's findings are credible,

reliable, and align with industry best practices. The battery limits of the IHC Mining PFS are from mine production through to delivery of finished product to Port.

The Company has previously communicated the deliverables of the IHC Mining PFS and can report that IHC Mining are progressing completion against those deliverables. HVY has received several technical proposals from other minerals processing vendors. The proposals have provided the opportunity to compare alternate process plant capital costs. All vendors are credible mineral sands suppliers. The proposals have been evaluated and provide visibility of a range of capital costs and new capex benchmarks for the PGGP. IHC Mining are nearing completion of the PG PFS and are awaiting inputs from AMC which includes the Ore Reserve estimate, and mine scheduling which are critical elements of the PFS.

### **Potential Industrial Minerals Opportunity**

During the quarter the Company continued work on the potential industrial minerals' opportunity referred to in the previous Quarterly Report.

Bulk samples were processed by IHC Mining in Yatala Queensland to produce approximately 750 kg of test product. Additionally, the Company has developed a robust test program to evaluate the performance of these industrial products against Industry benchmarks and potential competitor products. This test work is being conducted at CSIRO in Queensland with final performance results anticipated in the current quarter. At present, the results of the testing remain confidential and incomplete, and insufficiently definite to warrant disclosure.

The Company along with IHC Mining and Allied Project Development has conducted preliminary work on plant process flows, plant design and CAPEX.

Base on the performance results of the product testing the Company will assess the opportunity and the viability of executing a binding agreement.

The Company believes the opportunity will be complimentary to its existing portfolio of projects and is keen to receive final product testing results.

### **Preparation of Mining Lease Application:**

The Company has received all documentation for the Mining Lease Application which it intends to lodge in Q3 2025. The Company anticipates a face-to-face engagement with DMIRS regarding the submission in Q3 2025.

### **Funding and Financial Commentary**

The Company closed the quarter with \$33,000 in cash, details are provided in the Appendix 5B report. Payments totalling \$10,000 were made to Directors during the quarter for salaries and fees and superannuation. Payments totalling \$208,000 were made for exploration and evaluation on the Company's projects. During the quarter the Company received \$200K in Royalty funds with an additional \$150K being committed. The Company anticipates completing its Tranche 2 Royalty funding in Q3 2025. The Company additionally raised \$85K utilising its ATM (At the Market) Facility.

**This announcement has been authorised by the Board of Directors of the Company.**

### Competent Persons Statement

The information in this announcement that relates to Exploration Results, Exploration Targets and Mineral Resource estimates has been prepared, compiled and reviewed by Mr. Greg Jones (FAusIMM) who is a Non-Executive Director of the Company and a full-time employee of IHC Mining.

Mr. Jones is a Fellow of the Australasian Institute of Mining and Metallurgy and has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity that is being reported on to qualify as a Competent Person as defined in the 2012 Edition of the “Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves”.

Mr. Jones has reviewed this report and consents to the inclusion in the report of the matters in the form and context with which it appears.

### Cautionary Statement

Estimates by experienced, competent geoscientists are considered to be reliable and reproducible semi-quantitative estimates of the abundance of minerals present in a sample. Visual estimates of heavy mineral and mineral assemblage abundance should, however, never be considered a proxy or substitute for laboratory analyses where mineral concentrations or grades are the factor of principal economic interest. Visual estimates also potentially provide no information regarding potential impurities or deleterious physical properties relevant to valuations of industrial minerals.

## About Heavy Minerals Limited

Heavy Minerals Limited (ASX: HVY) is an Australian listed industrial mineral exploration company.

The Company's projects are prospective for industrial minerals including but not limited to Garnet, Zircon, Rutile and Ilmenite. The Company's initial focus is the Port Gregory and Red Hill Garnet Projects in Western Australia with the Port Gregory project having a JORC (2012) Measured, Indicated and Inferred Mineral Resource of 166 million tonnes @ 4.0% Total Heavy Minerals. This comprises a Measured Mineral Resource of 126 Mt @ 3.8% THM; an Indicated Mineral Resource of 20 Mt @ 6.5% THM; and an Inferred Mineral Resource of 20 Mt @ 2.9% THM. This includes 5.9 million tonnes of contained Garnet and 260 thousand tonnes of ilmenite<sup>1</sup>.

An Exploration Target has been defined for Red Hill using cut-off grades for reporting of 3% THM and 1% THM and ranging from 90 to 150 Mt of material @ 5.4% to 4.1% THM. The Exploration Target also contains between 5 and 6 Mt of THM and 3.8 and 4.5 Mt of garnet<sup>2</sup>. The potential quality and grade of the Exploration Target is conceptual in nature and there has been insufficient exploration activity to determine a Mineral Resource estimate and it is uncertain if further exploration will result in the estimation of a Mineral Resource.

The Company's other project is the Inhambane Heavy Mineral Project in Mozambique which contains an ilmenite dominated JORC (2012) Inferred Mineral Resource of 90 million tonnes @ 3.0% Total Heavy Mineral<sup>3</sup>.

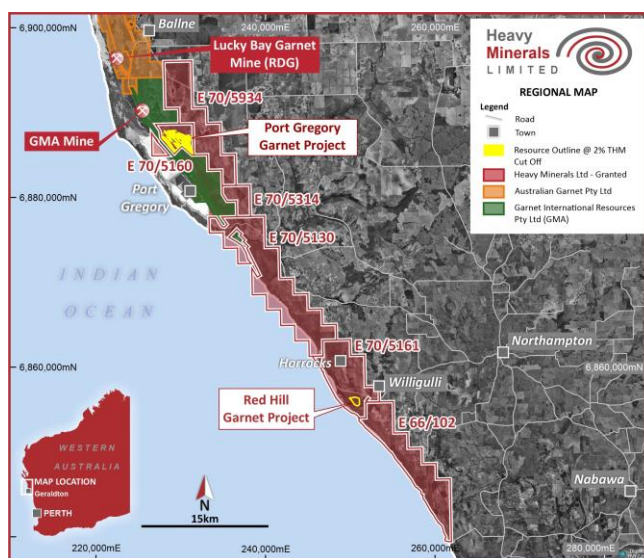

The Company confirms that it is not aware of any new information or data that materially affects the information included in this announcement and that all material assumptions and technical parameters underpinning the JORC estimates continue to apply and have not materially changed.

| 5.4 Other (provide details)  | -                                  | -                                   |
| <b>5.5 Cash and cash equivalents at end of quarter (should equal item 4.6 above)</b>   | <b>33</b>                          | <b>39</b>                           |

| <b>6. Payments to related parties of the entity and their associates</b>  | <b>Current quarter<br/>\$A'000</b> |
|---|------------------------------------|
| 6.1 Aggregate amount of payments to related parties and their associates included in item 1   | 10                                 |
| 6.2 Aggregate amount of payments to related parties and their associates included in item 2   | 15                                 |
| <i>Note: if any amounts are shown in items 6.1 or 6.2, your quarterly activity report must include a description of, and an explanation for, such payments.</i> |                                    |

Includes Directors' salaries and fees and superannuation.

|           |  |   |  |
|-----------|--|---|--|
| <b>7.</b> | <b>Financing facilities</b><br><i>Note: the term "facility" includes all forms of financing arrangements available to the entity.<br/>Add notes as necessary for an understanding of the sources of finance available to the entity.</i>   | <b>Total facility amount at quarter end<br/>\$A'000</b> | <b>Amount drawn at quarter end<br/>\$A'000</b> |
| 7.1       | Loan facilities  | -   | -  |
| 7.2       | Credit standby arrangements  | -   | -  |
| 7.3       | Other (At-The-Market Facility)   | 277   | 85   |
| 7.4       | <b>Total financing facilities</b>  | 277   | 85   |
| 7.5       | <b>Unused financing facilities available at quarter end</b>  |   | 277  |
| 7.6       | <p>Include in the box below a description of each facility above, including the lender, interest rate, maturity date and whether it is secured or unsecured. If any additional financing facilities have been entered into or are proposed to be entered into after quarter end, include a note providing details of those facilities as well.</p> <p>The Company has an unused At The Market Facility (ATM) that attracts no charges or interest whilst not being utilised. Use of the facility is at the Company's discretion.</p> |   |  |

|           |   |                |
|-----------|---|----------------|
| <b>8.</b> | <b>Estimated cash available for future operating activities</b>   | <b>\$A'000</b> |
| 8.1       | Net cash from / (used in) operating activities (item 1.9)   | (81)           |
| 8.2       | (Payments for exploration & evaluation classified as investing activities) (item 2.1(d))  | (208)          |
| 8.3       | Total relevant outgoings (item 8.1 + item 8.2)  | (289)          |
| 8.4       | Cash and cash equivalents at quarter end (item 4.6)   | 33             |
| 8.5       | Unused finance facilities available at quarter end (item 7.5)   | 277            |
| 8.6       | Total available funding (item 8.4 + item 8.5)   | 310            |
| 8.7       | <b>Estimated quarters of funding available (item 8.6 divided by item 8.3)</b>   | 1.1            |
|           | <i>Note: if the entity has reported positive relevant outgoings (ie a net cash inflow) in item 8.3, answer item 8.7 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.7.</i>   |                |
| 8.8       | <p>If item 8.7 is less than 2 quarters, please provide answers to the following questions:</p> <p>8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?</p> <p>Answer: The Company anticipates a reduction in the expenditure for the next quarter based on the nearing completion of its Port Gregory PFS study.</p> <p>8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?</p> <p>Answer: The Company has initiated its Tranche 2 Royalty fundraising and plans to raise ~\$2M during the next quarter. This follows its successful Tranche 1 campaign (with a total of \$2.13m having been raised). The Company also has its full 7.1 and 7.1a capacity available plus an at the market facility (ATM) available if required.</p> |                |

8.8.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer: Yes, based on the explanation in 8.8.2

*Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.*

## Compliance statement

- 1 This statement has been prepared in accordance with accounting standards and policies which comply with Listing Rule 19.11A.
- 2 This statement gives a true and fair view of the matters disclosed.

Date: 29 July 2025

Authorised by: By the Board of Heavy Minerals Limited  
(Name of body or officer authorising release – see note 4)

## Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
