8.8 If item 8.7 is less than 2 quarters, please provide answers to the following questions:

8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?

Answer: No, as result of the lease entered into in April 2025, the company expects increased revenues and margins from its Chilean operations, as it moves into full operation. Over the past 12 months the Company has been subject to a customer project cycle which with the movement of our plant to the major centre of construction activity will result in both sales and volume growth far greater consistency.

Payments for administration and corporate costs during the current quarter included payment of historical creditor balances that had been deferred pending the completion of capital raise. Administration and corporate costs will be lower in the coming quarters.

8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

Answer: No. However the Company is continually reviewing opportunities to create value for shareholders within its existing operations in addition to considering projects outside its current activities which it believes will enhance shareholder value. In this context it may undertake further fundraising.

8.8.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer: Yes, based on the measures outlined above.

Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.
