⁽¹⁾ The total facility limit represents the maximum contractual principal available under the Company's loan and credit arrangements.

Note A

The secured debtor finance facility has a committed limit to December 2025. The drawings made under the committed facility limit are however revolving in nature and accordingly, the debt of \$23.7 million outstanding under the facility at 30 June 2025 will be disclosed as a current liability. This facility will continue to be available to be redrawn, subject to eligible sale invoices being presented against the facility until December 2025. As at 30 June 2025, \$29.2 million (including the benefit of the Bennamon bank guarantees provided to ScotPac as discussed below) (30 June 2024: \$23.2 million) of eligible sales invoices had been presented against the facility. For further information refer to the Company's 30 June 2024 Annual Report.

During April 2025, ScotPac increased the limit of the debtor finance facility from \$30.0 million to \$35.0 million. The increased limit remains in place, subject to ongoing review.

Drawdown availability of the debtor finance facility is subject to the seasonal movements of debtors at any particular point in time (\$26.5 million was available at 30 June 2025)

A\$5 million guarantee provided by Bennamon to ScotPac (subject to certain conditions agreed between Bennamon and ScotPac) resulted in a commensurate \$5.0 million of funds being available to be drawn within the \$35.0 million limit of the facility (in effect adding to the eligible debtors under the facility).

Interest on the facility is calculated daily, and for those days which the drawn amount exceeds the eligible debtors under the facility an additional 4.0% interest charge on total facilities drawn is applied.

Note B

The secured 3-year asset financing facility is subject to monthly principal and interest repayments, with a prevailing interest rate of 12.99%. The facility limit applies only to the principal loan amount. As at 30 June 2025, the principal was fully drawn.

Note C

On the 12 December Bennamon signed Loan Agreements with the Company which provides for funds of up to A\$13.0 million covering both Australia and New Zealand. These loans are subject to the Company issuing drawdown notices to Bennamon. The termination date is 31 March 2026, unless otherwise agreed to be amended by both parties.

The facility limit applies only to the principal loan amount. As at 30 June 2025, the principal was fully drawn. Under the terms of the agreement, interest accrued on drawn amounts is able to and has been capitalised to the principal balance and payable on termination of the facility. As at 30 June 2025, the Company had recognised capitalised interest of \$0.6 million which is not included in the facility limit but is recorded as part of the total borrowings balance outstanding at this date (\$13.6 million).

The Bennamon loan is unsecured. Priority is governed by specific Deeds with existing lenders and the Corporations Act (or Companies Act in NZ). Lender consent is required for proposed repayments in certain circumstances.

The Company has also received additional financial support from Bennamon to finance the engagement of Leaders on Demand for an initial period of 6 months to assist with the implementation of the strategic review. For the quarter ended 30 June 2025, the Company has recognised total expenses of \$0.47 million in relation to these consulting fees. These amounts are disclosed as trade and other payables in the statement of financial position at this date and are not included in borrowings outstanding.

The financing of the Leaders on Demand invoices have been captured in the loan entered into by the parties on 31 July 2025.

Note D

ANZ facilities are subject to annual review on 30 September 2025, unless otherwise agreed between the parties.

Full year results release

Our full year results and Annual Report for the year ended 30 June 2025 are scheduled to be released by 31 August 2025.

FY2025 EBITDA (pre-AASB 16 and before significant items) was approximately a \$19.5 million loss.

As previously reported, the company has initiated a strategic review, focussed on improved profitability, reviewing capital allocation and assessing short term and medium term funding arrangements.

The Company has appointed advisors to assist with the strategic review, which may lead to the sale of certain assets. The Company is in the early stages of this review and there is no certainty it will elect to proceed with any transaction. The Company will update the market as necessary in line with its continuous disclosure obligations.
