Calix 2HFY25 Results Webinar and ZESTY Deep-Dive Webinar details

Sydney, Australia | 29 July 2025 – Australian environmental technology company, Calix Limited (ASX: CXL) (“the Company”) is pleased to advise that it will release its results for the full-year period ended 30 June 2025 on Tuesday, 26 August 2025. The Company will host an investor webinar with Managing Director and CEO, Phil Hodgson and CFO, Darren Charles to discuss the results.

Separately, this is a reminder that Calix will host a deep-dive webinar on its Zero Emissions Steel Technology (ZESTY) and Green Iron Demonstration Plant on Thursday, 31 July 2025 at 11:00am AEST. This webinar will be presented by Managing Director and CEO, Phil Hodgson and CEO-Elect ZESTY and GM Sustainable Processing, Chris Ormston with special guest Dr Ingrid Burfurd, Carbon Price and Policy Lead at The Superpower Institute.

Please register for the webinars using the details below. After registering, you will receive a confirmation email containing further information about joining the webinar.

Investors can submit questions via the Microsoft Teams Q&A box on the day of each presentation, or via investorrelations@calix.global in advance.

About Calix

Calix Limited (ASX: CXL) is an environmental technology company creating businesses that solve global challenges in industrial decarbonisation and sustainability.

Calix's unique patented core platform technology delivers indirect heating of raw materials to enable efficient, precise, flexible and renewably powered metals and minerals processing and capture of unavoidable industrial emissions.

With strong and increasing demand driven by global decarbonisation commitments, Calix is applying its core technology to the cement, steel, alumina and critical minerals industries, as well as the direct air capture of atmospheric carbon dioxide, and the production of sustainable environmental products.

Leveraging its core platform technology and a global network of partners, Calix is urgently developing multiple businesses that deliver positive global impact. Because there's only one Earth.

Mars is for quitters.
