

28 July 2025

Quarterly Report

For the Period Ended 30 June 2025

Operational Highlights

- Manna Lithium Project DFS work activities continued, focusing on further enhancing project economics
- Significant engagement and progress on the Native Title Mining Agreement (NTMA)
- Exploration Incentive Scheme co-funded drilling program completed at Marble Bar Project Area.
- Continued low-cost evaluation of non-lithium, multi-commodity exploration opportunities on current tenure, which are currently underexplored
- Variation of terms to existing offtake agreement with Canmax finalised.
- Continuing to investigate ways to realise the undervalued non-lithium assets such as the tenements containing gold and copper prospects.

Corporate

- Continued cost control across the Company with cash burn rate reduced significantly in this quarter
- Cash position of \$16 million and listed equity investments of A\$7.9 million as of 30 June 2025.

Established multi-asset West Australian lithium company Global Lithium Resources Limited (**ASX: GL1**, “**Global Lithium**” or “the **Company**”) reports its activities for the quarter ended 30 June 2025.

Global Lithium Managing Director and Chief Executive Officer, Dianmin Chen commented,

“The GL1 Board’s refocus on delivering shareholder value from achieving key milestones at Manna was key to us being able to attract more strategic partners like a world lithium chemical leader Canmax to maintain its ongoing interest in sourcing spodumene concentrate from our Manna project in WA”

Manna Lithium Project

Following the AGM on 13th February 2025 the newly elected Board has refocused on delivering three major milestones for the Manna Lithium Project:

- Completing the NTMA with Kakarra Group
- Securing the grant of the Mining Lease, and
- Completing the optimised Definitive Feasibility Study

Native Title Mining Agreement

The GL1 Board has been actively engaged with the registered Native Title body corporate for the Kakarra Part B Native Title Holders on all matters related to the Native Title Mining Agreement. The GL1 Board is committed to developing the Manna Lithium Project with the goal of producing mutually beneficial outcomes for the Kakarra Part B Native Title Holders and Company's shareholders.

Mining Lease

Once the Native Title Mining Agreement is signed, the last documents required for the Mining Lease application will be submitted to the Department of Mines, Petroleum and Exploration for the grant of the Mining Lease.

Definitive Feasibility Study (DFS)

To fast track the DFS process, Mincore has been appointed as the project director for the Company and GR Engineering re-engaged to conduct the processing plant design. All work conducted previously has been reviewed through trade off studies and optimisations. This work aims to reduce CAPEX and OPEX which will make the Manna Project more investable and profitable. The flowsheet of the processing plant has been finalised and the design work has commenced. Based on the new principles and criteria, the processing equipment, NPI's (non-plant infrastructure), mining works, power supply and logistics services have been requoted. It is expected that the optimised DFS will be completed in the December Quarter 2025.

Variation of terms to existing offtake agreement with Canmax

The original agreement, signed with Canmax (formerly Suzhou TA&A Ultra Clean Technology Co.) on 3 March 2022 (refer ASX releases 3 and 9 March 2022), was to secure a minimum of 30 per cent of available spodumene concentrate from the Manna Project over a 10-year period.

Under the original terms, either party had the opportunity to terminate the Agreement by issuing a written termination notice to the other party if any of the following had not occurred on or before 31 December 2024, being:

- the Company completing construction and commissioning of a 'Concentrates Plant'; or
- the Company completing internal product qualification to meet the agreed product specification.

The Company and Canmax have agreed to a variation of that Agreement by removing their reciprocal rights to terminate the offtake as a consequence of the now past 31 December 2024 deadline for the above development activities to have occurred and maintains the intent of the original Agreement.

The Company and Canmax have also agreed that the current contract pricing based on a market price formula determined by reference to internationally recognised price reporting agencies must be reviewed, discussed and negotiated within six months following the delivery of a Definitive Feasibility Study on the Manna Lithium Project.

Exploration

No site activities were carried out during the quarter at the Manna Project. The Company focussed on progressing the DFS, Native Title Mining Agreement negotiations and land access approvals for the Manna Lithium Project.

Marble Bar Project

Exploration

During the quarter, activities at the Marble Bar Project included the completion of two Exploration Incentive Scheme (EIS) supported diamond drill holes targeting gold and base metals down plunge of a previously identified sericite-pyrite altered core of a granite plug proximal to GL1's Twin Veins and Douglas Find gold prospects (Figure 1). The drill program was completed safely and on budget with assay results still pending at end of quarter. An announcement to market regarding the results from the program issued after completion of the June quarter. Refer ASX release dated 23 July 2025.

GLR continues to assess options to achieve value from its Marble Bar gold asset.

Corporate

While the current lithium market price is low, the Company is actively reviewing a number of strategic business growth opportunities and holding discussions with potential strategic partners for developing the Manna Lithium Project.

The Company is doing everything to reduce expenditure and reserve cash. The cash burn rate has been reduced significantly in the June Quarter as shown in the quarterly cash flow report.

Related Party Transactions

Payments to related parties of the entity and their associates (refer section 6 of Appendix 5B):

- Included at section 6.1 - Comprises: Remuneration of directors \$158,000
- Included at section 6.2 – Comprises: Remuneration of directors \$Nil.

Listing Rule 5.3.1 and 5.3.2

In accordance with ASX Listing Rule 5.3.1, the Company confirms that there have been no material developments or changes to its exploration activities, and provides the following information:

- Approximately \$1.2m was incurred by the Company in respect of exploration activity for the quarter ended 30 June 2025, primarily on:
 - Ongoing studies and approval workstreams related to the Manna Lithium Project
 - Drilling of two diamond drillholes at the Marble Bar Project
- A summary of the specific exploration activities undertaken in the Marble Bar and Manna project areas is included in this activity report.

In accordance with ASX Listing Rule 5.3.2, the Company advises that no Mining Development or Production activities were conducted during the quarter.
