

24 July 2025

Aumake Limited (ASX: AUK)

Full year sales rise 50% to \$39m

Aumake Limited (ASX: AUK) (Aumake or the Company) updates shareholders that full year revenues are expected to rise by over 50% vs FY24 to over \$39m AUD (preliminary, unaudited results) compared to \$25.87m in FY24.

Chairman, Dr Anthony Noble, commented on the expected result *"As China Australia trade relations materially thaw, few companies stand better positioned to capitalise on the increased focus on trade between the two countries than Aumake Limited. The company's sales results in the full year ended 30 June 2025 are expected to eclipse \$39m AUD, up from \$26m in FY24 – cementing our status as one of the only ASX listed companies that can execute on meaningful, long-term sales into the China market."*

"In FY26, the company is evolving and maturing our strategy to more profitably exploit our enviable distribution capabilities in the Chinese market through several key strategic objectives. These include transitioning our substantial cross border and China retail B2B and B2C business units to lower cost models, exploring new sales channels via Pilot Zone distribution into China Hospital Pharmacies, and activating sales of our own branded products, such as BioBasics, in China and the USA through our NewEra / ZoomCoo partnership. These new objectives build on our strong brand partnerships with Danone, Kabrita and other foundational cross-border brand leaders."

"To more effectively deliver on this strategy and further reduce our fixed cost base the company has recently announced a corporate restructuring into two business units that will significantly simplify our executive team, board and subsidiary structures. The restructure will give shareholders and investors more clarity on the various business activities, profitability and sales growth in the company. At the highest level, the restructure positions Aumake as a brand incubation business that can be agile in new market entry and capitalise on success via acquisition of successful brands in our ecosystem, as they reach maturity, all while prudently deploying shareholder capital."

This release has been approved by the board of directors
