Mine Plan

- Mining of West Lode can occur concurrently with dewatering of Main Lode
- No lead time to ore production
- Two diggers to maximise ore production and waste move

Mine Plan

- Mining of West Lode can occur concurrently with dewatering of Main Lode
- No lead time to ore production
- Two diggers to maximise ore production and waste move

Mining - design

- Mine Design has starter pit on the West Lode (in green), with a second stage on the Main Lode (blue – right, and red – below below)
- NW and NE pits can be mined separately after infill drilling and possible redesign
- Dilution (30%) and ore loss (5%) applied post pit design*

Metallurgy and Processing

- Executed agreement with FMR (Greenfields) who have 3 grind circuits, 7 leaching tanks with 1.1Mt pa capacity
- Appointed JT Metallurgical Services to manage the mill optimising Matsa's ore processing through increase/decrease grind size, throughput rates, reagent usage and residence time
- Processing cost expected to be \$75/t (*based on 2800t/day throughput*)
- Haulage costs expected to be approx. \$50/T

Infrastructure Already In Place

Infrastructure Already In Place

We have the assets and funding to create significant value

Devon Pit Gold Mine

- Fully permitted
- 25 km from Red October accommodation village
- 72 person Red October camp
- All haulage infrastructure in place
- Airstrip
- Traditional open pit mining methods
- Matsa has successfully undertaken open pit mining previously at Fortitude and Red Dog

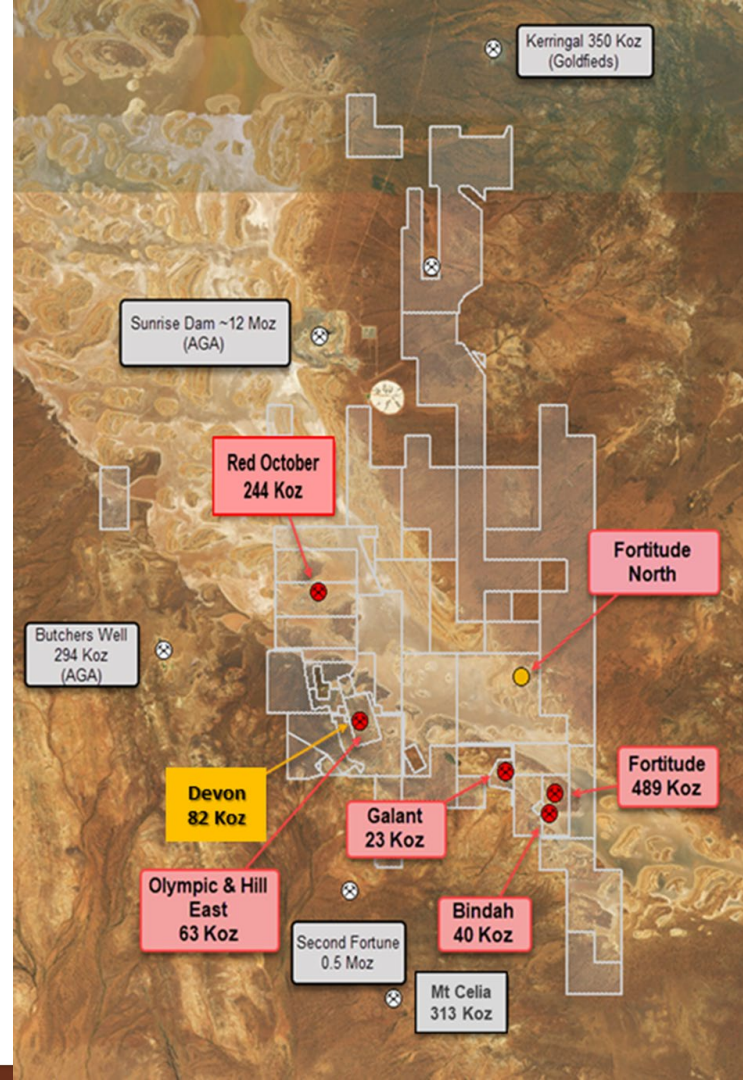

Lake Carey Gold Project

A substantial golden opportunity

- 3 Gold Mines
 - Fortitude Gold Mine
 - Devon Pit Gold Mine
 - Red October Underground Gold Mine
- A world class exploration target
 - Fortitude North
- Pipeline of quality greenfields and brownfields exploration targets to be drilled including:
 - Fortitude North
 - Bindah
 - New Years Gift
 - Gallant
 - Hill East
 - BE 1-4

Quality pipeline of exploration projects

AngloGold Option Agreement

- ✓ Option Agreement signed (27/02/25)
- ✓ First option fee AUD\$500,000 received (27/02/25)
- ✓ All Conditions Precedent met, Agreement now unconditional (23/06/25)
- ✓ AUD\$4.5M Option fee paid to Matsa (25/04/25)
- ✓ AGA select tenements to proceed next stage of Options Agreement (15/07/25)
- ❑ 1st AUD\$1.5M instalment fee due 23 December 2025
- ❑ 2nd AUD\$1.5M instalment fee due 23 June 2026
- ❑ Final and full transaction payment (~\$AUD\$ 81.7M) before 23 December 2026
- ❑ A further AUD\$20M in royalties on new resources

Fortitude North - Matsa Discovery

- **1.7km long mineralised zone** open along strike with strong potential to increase with drilling expected to commence in the near term
- Along strike and 6km north of Fortitude Gold Mine (0.5Moz)
- Regional structure >30km strike
- Mineralisation structurally controlled within interpreted dextral slip dilational jog
- Evidence of a long lived system with multiple gold forming stages => suggests large system should be present
- Size of Fortitude North anomaly is larger than that of the Fortitude Gold Mine
- Seismic model suggests possible syncline (bowl) setting plunging to the south

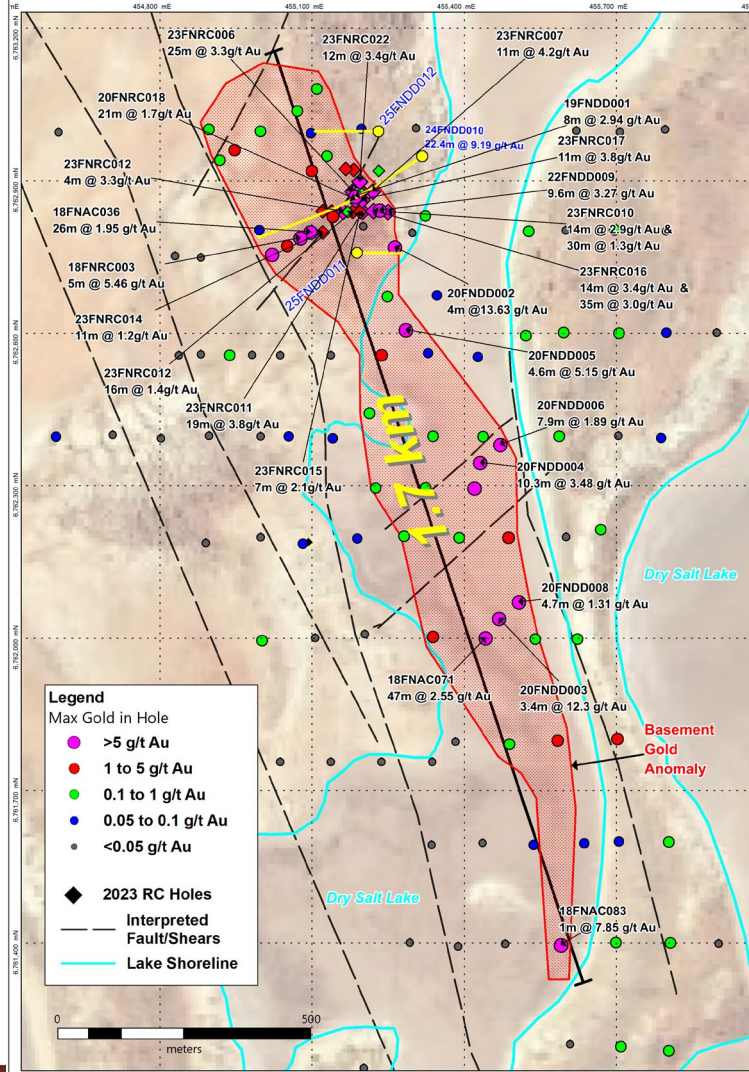

Fortitude North Drilling[^]

- Seven of the top twelve intercepts at Fortitude North have come from the 2023 program[^]:

- **25m @ 3.3g/t Au** from 147m (23FNRC006)
- **14m @ 3.4g/t Au** from 113m, and;

Disclaimer and Forward Looking Statements

This presentation has been prepared by Matsa Resources Limited ("Matsa" or the "Company"). It should not be considered as an offer or invitation or inducement to subscribe for or the purchase of any securities in the Company. This presentation may contain certain "forward-looking statements" which may not have been based solely on historical facts, but rather may be based on Matsa's current expectations about future events and results. Where the Company expresses or implies an expectation or belief as to future events or results, such expectation or belief is expressed in good faith and believed to have a reasonable basis. Actual results and developments may differ materially from those expressed or implied.

The material in this presentation is intended to be a summary of current and proposed activities, selected geological data and Mineral Resource estimates. This data is based on information available at the time. It does not include all available information and should not be used in isolation as a basis to invest in the Company. This overview of Matsa does not purport to be all-inclusive or to contain all information which its recipients may require in order to make an informed assessment of the Company's prospects. You should conduct your own investigation and perform your own analysis in order to satisfy yourself as to the accuracy and completeness of the information, statements and opinions contained in this presentation before making any investment decision.

This presentation includes information and graphics relating to a conceptual mining study, completed Mineral Resource estimate and a scoping study and includes "forward looking statements" which include, without limitation, estimates of gold production based on mineral resources that are currently being evaluated.

While the Company has a reasonable basis on which to express these estimates, any forward looking statement is subject to risks, uncertainties, assumptions and other factors, which could cause actual results to differ materially from future results expressed, projected or implied by such forward-looking statements. Risks include, without limitation, gold metal prices, foreign exchange rate movements, project funding capacity and estimates of future capital and operating costs. The Company does not undertake to release publicly any revisions to forward looking statements included in this report to reflect events or results after the date of this presentation, except as may be required under applicable securities regulations.

Any potential investor should refer to publicly available reports on the ASX website and seek independent advice before considering investing in the Company.

Production Targets and Forecast Financial Information

The information in this presentation that relates to production targets and financial information is extracted from ASX announcements dated 22 January 2021 (Concept Study 600,000tpa Treatment Plant Lake Carey Project), 4 October 2021 (Updated Fortitude Study Increases Surplus to A\$95M) and 17 May 2023 (Devon Pit Scoping Study Delivers Excellent Results). Matsa confirms that all material assumptions underpinning the production targets and forecast financial information derived from production targets set out in those announcements, including the cost and pricing assumptions, continue to apply and have not materially changed.

Competent Persons Statements

The information contained within this presentation that relates to Exploration Targets, Exploration Results, Mineral Resources or Ore Reserves is based on, and fairly represents information prepared by Mr Pascal Blampain, a Competent Person who is a Member of the Australian Institute of Mining and Metallurgy (AusIMM) and Australian Institute of Geoscientists (AIG). Mr Blampain is a Director of Matsa Resources Ltd and has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resource and Ore Reserves". Mr Blampain consents to the inclusion in this presentation of the matters based on his information in the form and context in which it appears.
