DGR GLOBAL CREATES RESOURCE COMPANIES

DGR Global's business is the creation of resource exploration, development, and mining companies. The business uses the skills of a core team of talented exploration staff to identify resource projects capable of yielding world class discoveries of commodities with enduring strong fundamentals. This is achieved through the identification of commodities with a favourable 20-year demand, growth, and price outlook. DGR searches for geological terranes with:

- A demonstrated strong endowment for that commodity in an historically under-explored region.
- Opportunity for the application of newly developed exploration and metallurgical techniques to assist in the definition of economic resources.
- Jurisdictions with improving socio-economic and regulatory frameworks.
- Extensive available tenures.
- Existing data sets which provide the basis for innovative reinterpretation.

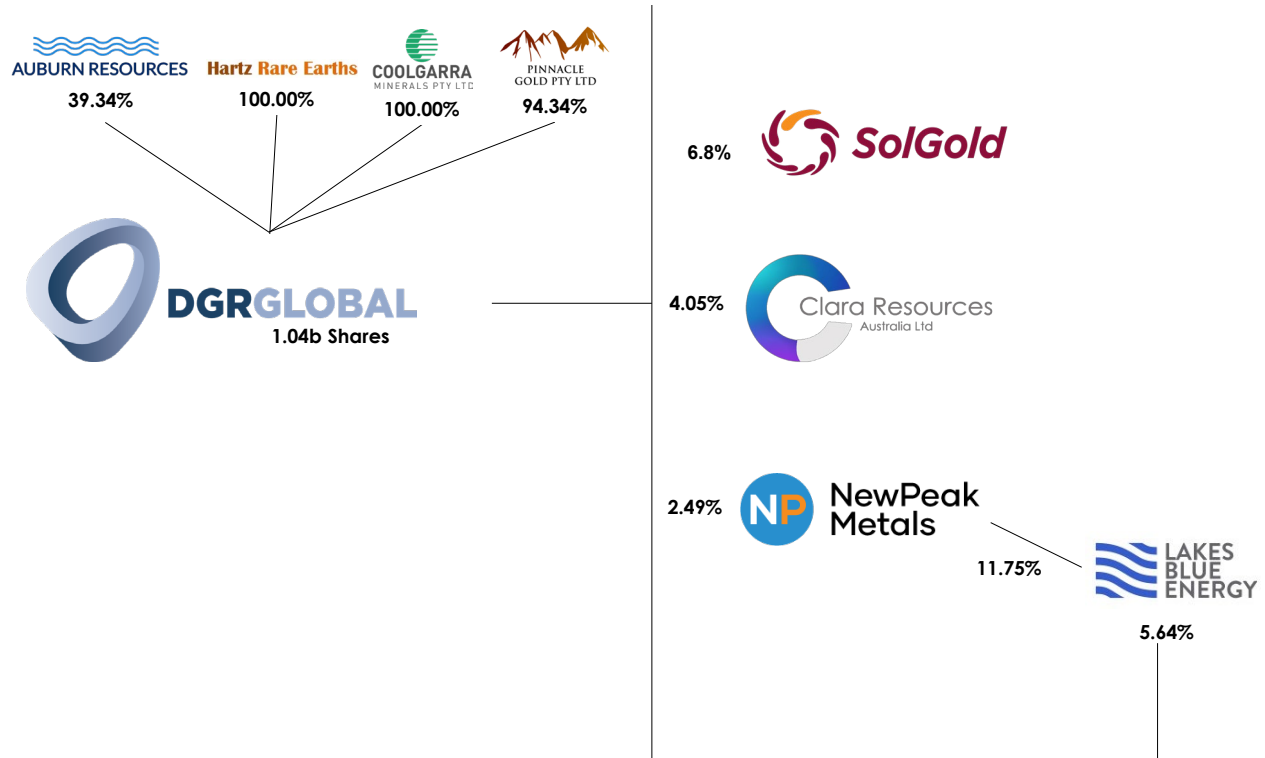

DGR Global provides initial seed funding and management support to secure these assets in subsidiaries and develop these assets to more advanced funding stages. The Company has a pipeline of projects in daughter companies at various stages of emergence, and in 2015 crystallised a significant return through the sale of its 15% holding in Orbis Gold for \$26Million. Further return from its holdings in LSE/TSX listed SolGold plc and ASX listed Clara Resources Australia Ltd, New Peak Metals Ltd, Lakes Blue Energy NL, and unlisted Auburn Resources Ltd is expected over the coming years.

The previous resource exploration and funding activities of DGR's key personnel underscore the opportunities provided by the DGR business model. DGR Global does not generally purchase its exploration projects. DGR's in house generative capabilities give the Company a strong competitive edge. DGR's focus on provincial tenement positions covering entire sedimentary basins or structural blocks where possible, delivers capital, government, and major resource corporate attention.

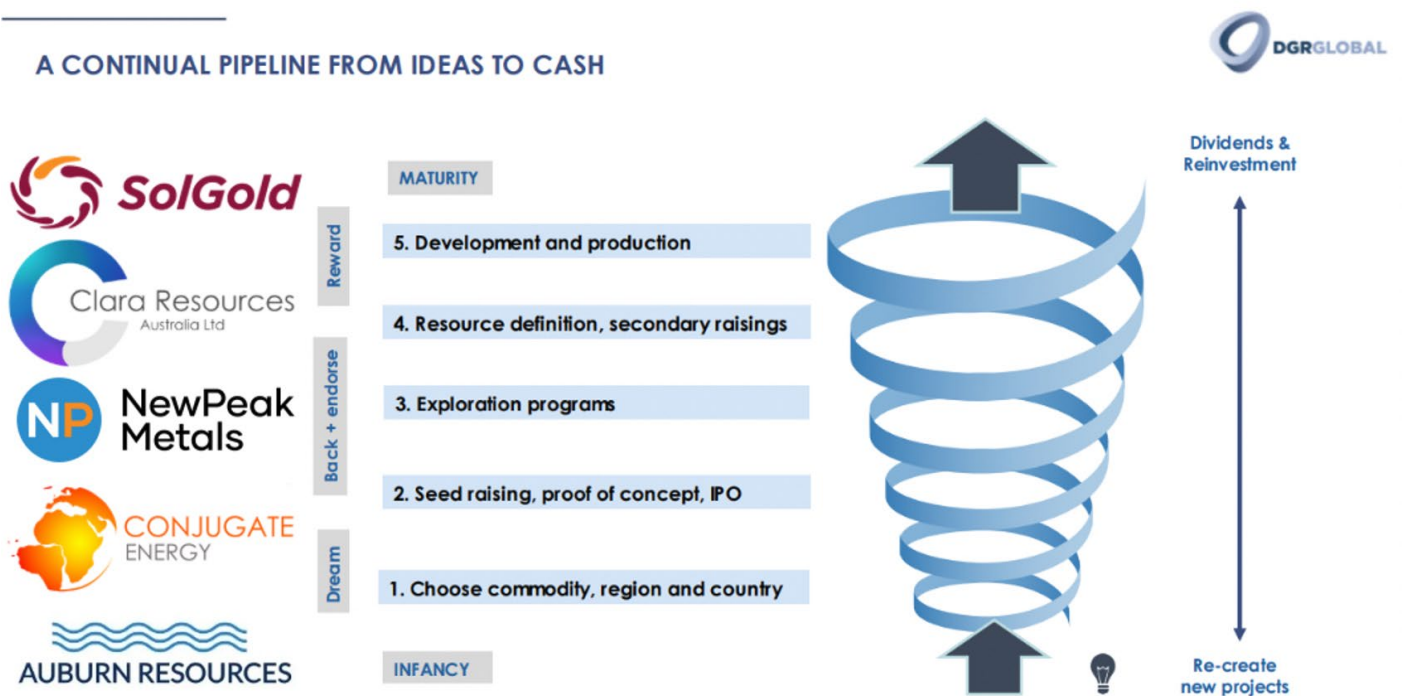

DGR Global holds key equity positions in its subsidiary companies after listing. As shown in the DGR Global Group Corporate Structure as of 30 June 2025, DGR Global holds:

- 6.8% of SolGold Plc (LSE/TSX : SOLG),
- 4.05% of Clara Resources Australia Ltd (ASX : C7A),
- 2.49% of New Peak Metals Ltd (ASX : NPM),
- 5.64% of Lakes Blue Energy NL (ASX : LKO).

QUARTERLY REPORT FOR THE PERIOD ENDED 30 JUNE 2025

During the quarter further modelling for the Calgoa/Kolbar Project area was undertaken with a view to generating prospective drill targets. DGR and its related entities continue to remain active, advance projects and plan exploration programmes within their respective portfolios as reasonably permitted by the prevailing conditions.

Highlights for each entity for the current quarter follow.

DGR Global Ltd [ASX:DGR]

- The Company continues to focus on new project generation and value creation and also continues to seek out new investment and development opportunities to drive the creation of new resource companies.
- DGR also owns 39.34% owned, public, unlisted Auburn Resources Ltd.
- Armour Energy Ltd - As previously disclosed to the ASX* post Armour Energy Ltd being placed into receivership and administration on the 10th of November 2023. DGR Global Ltd ('DGR' or 'the Company') had a material investment in Armour Energy Ltd (in liquidation) both via convertible notes and its position as the company's largest shareholder.
 - Accordingly, DGR Global Ltd progressed various Deeds of Company Arrangement (DOCA's) to present to creditors at the second creditors meeting dated 19th of January 2024 which sought to cater to all stakeholders' interests including all creditors and shareholders of Armour Energy Limited (in liquidation) and its subsidiaries.
 - DGRs DOCA's were voted against by creditors who supported the competing bid from ADZ Energy Pty Ltd a company incorporated in Australia in October 2023. The competing bid focussed primarily on the subsidiaries of Armour Energy Ltd (in liquidation), which has itself now been placed into liquidation.
 - DGR contends that the receivers of Armour Energy Ltd (in liquidation) were invalidly appointed and have commenced proceedings in relation to that, which are ongoing.
- In December 2023, DGR Global Ltd (**DGR**) commenced legal proceedings in the Supreme Court of Queensland in relation to the administration and receivership of the Armour Group (**Proceeding**). DGR refers to its previous Quarterly Reports, Half Yearly Reports, and Annual Reports advising on the Proceeding.
 - On 1 July 2025, the Court of Appeal unanimously decided to allow DGR's appeal and set aside the Supreme Court's 15 January 2025 order that DGR provide \$3,460,000 as security for costs of the Proceeding (**Security for Costs Decision**). DGR was also awarded its costs of the applications for security for costs and the appeal.
 - In summary, the Court of Appeal concluded that there was no reason to believe that DGR would be unable to pay the defendants' costs if ordered to do so, and that the defendants' inordinate delay in making the applications for security for costs warranted their refusal. The Court of Appeal also recognised the substantial prejudice to DGR arising from the Security for Costs Decision, due to the need for DGR to raise a significant sum of money to preserve existing trial dates and avoid its claims being stayed.
 - As a result of the Court of Appeal's decision, the stay of the Proceeding was lifted.

- On 30 July 2025, the Proceeding was listed for a review in the Supreme Court. At that review, the Proceeding was listed for a further review on 15 August 2025.
- In April 2025, DGR executed a facility agreement, for a total of \$23.5M, to fund refinancing of existing debt facilities, provide working capital and ongoing legal fees². DGR progressed finalisation of the facility agreement, with shareholder approval granted at the Extraordinary General Meeting of shareholders held on 2 April 2025².
- HSEC (Health, Safety, Environment and Community) for the group entities for which DGR acts as Operator, maintains a rolling 12-month TRIFR of 0.00 and recorded zero environmental incidents for the corresponding period, demonstrating DGR's continuous commitment to sustainable and safe operations.
- Subsequent to the cancellation of the Kanywataba exploration licence in Uganda and with regards to the recent challenging capital market conditions not being accommodating, the board has resolved to not pursue further exploration activities in Uganda at this time. Accordingly, the Turaco exploration licence has been cancelled.
 - It Should be noted that the carrying value of the Uganda assets were fully impaired in the June 2024 Financial Statements and as such the expiration of the exploration licence will not create any adjustments to the Statement of Financial Position of the company.
